Redsun rts strategy pvp apkpure

Crush enemies and lead your clan to honor the magnificent, but shameless, League of Legends clone Clash of Clans characters off in epic duels escape the terrible teacher! Lords Mobile: Build an empire to destroy your enemies Combat stick-figure war THEO ĐÔI CHÚNG TÔI RedSun RTS: Strategy PVP RedSun is a good example of the genre of classic RTS, unduly forgotten today. In this game you direct and, as is the self-evident name of the genre, real-time control troops, build a base, plan attacks and strengthen defense on the battlefield. At your disposal different types of units – each of them with your own goals, strengths and weaknesses. Also, don't forget that the game is just beginning to evolve. We, in turn, will do everything we can to develop the game and not let you get bored. This is just the beginning. The game is made in 2D isometric style. Game features:- Virtually without changing the classic controls, adding new features, as well as multiselect items from one to several. (It is possible to play with the mouse, according to must have device support otg cable or Bluetooth) Screens in HD and FHD use zoom when you see finely.- Building the base of the classic MCV everywhere on the map (double click engineering machine), as well as other technological structures. Mining crystals harvesters.- Powerful weapon in the form of a nuclear explosion (soon there will be others, and it will be possible to buy a quantitative stock)System improvements to Arsenal for the development of new units. Achievements and medals.- Currently you can only play with the Patriots Alliance (soon there will be fanatics with a red hammer, etc.)Differences from other games, so-called strategic:- Create any number of units and buildings, there are almost no restrictions, in addition to the resources of the device, otherwise it will lag. (Testing older devices shows excellent fps) In addition, don't forget that the game is only the beginning of its development in early autumn, and we in turn do our best to develop the game and not let you get bored. Planned a lot, maybe even multiplayer. Thanks for the criticism, reviews, positive comments, suggestions, we first try to make the game good old time RTS strategies in the late 90's and early 2000s to correct errors and shortcomings of the game in time, and help players understand the mechanics of the game, although it is not particularly simple.P. S. Maps and other content to update is desirable that the internet would always be there. Please update all Google service because the game at the beginning of the run can be hung, please do not swear by the game and developers because we will make your personal time for you.
